

Whatley Manor Hotel & Spa
Environmental and Social Sustainability Policy
22nd February 2019

We are committed to achieving best practice environmental and social sustainability and has partnered with [EarthCheck](#), the world's leading Benchmarking and Certification provider.

Whatley manor is a 23-bedroom hotel and Spa, set in 12 acres of beautifully maintained gardens, in the heart of the Cotswolds. The Hotel includes a Thermal Spa with 5 treatment rooms, indoor Hydro Pool, Sauna, Steam Rooms and Tepidarium. There is a Gym & Fitness studio and a Spa lounge. There is a Board Room and a 40-seater Cinema. We also have 3 restaurants; The Dining Room with a Michelin Star, Grey's Brasserie and The Green Room, which is an open kitchen where guests can interact with the chefs.

At Whatley we recognize that the natural environment around is the main driver for tourism in the area and that the activities of our hotel have the potential for negative impact on this habitat and its community. Our Environmental Management System of the

[EarthCheck](#) Company helps us to properly manage these impacts.

Through collaboration with our team, hotel owners, suppliers, business partners and guests, we actively work to reduce the environmental impact of and risk to our business by focusing on critical areas including carbon emissions, energy, food & beverage, supply chain, waste & water. These environmental performance indicators will be measured and summarized through annual reporting and used to continually improve our annual benchmarking.

Additionally, we are committed to integrating leading environmental practices and sustainability principles aimed at:

- Protecting natural resources
- Supporting local products, businesses and suppliers
- Establishing and reporting on key environmental performance indicators
- Minimizing waste and pollution
- Raising environmental awareness among our team, guests and communities
- Complying with legal principles
- Supporting local employment
- Committing to Fairtrade principles

We acknowledge that achieving our goals and objectives will require many changes to be made over time. However, we strongly believe that our sustainability efforts serve the interests of both current and future generation and constitute the foundation for long-lasting success and competitive advantage.
