Quotes.

“Working with Sothys as our new spa wellness partner will further position Aquarias Spa as a place to restore your natural balance in 2023. In Sothys we have found a luxurious spa brand who are constantly working to reduce their negative impact on the planet with all that they do, a strongly shared value with Whatley. We are also looking forward to harnessing the natural parallels immersed in the Les Jardins Sothys with our own gardens including The Kitchen Garden. We expect to see these influences being incorporated into the treatments, spa lounge menu as well as further enhancing the sensory experience for our day spa and hotel guests”
